### USER EXPERIENCE

Users are walked through our easy to use interface allowing them to enter their information and register for multiple courses from multiple sessions if desired. Payment is accepted on the website. The My Account feature allows Coordinators to enter their attendee information, manage their own data and keep track of their attendees. It's simple and straight forward!

### ADMINISTRATIVE TOOLS

The administrator can easily create courses and manage the attendees. Wait Lists can be created for each course, attendees can be allowed into a class from the waitlist, payment can be applied, and attendees can be transferred from one class to another or withdrawn from a class completely. Notifications can be sent out using multiple criteria and reporting on your daily transactions and payments is easy!

"I can't believe how easy Joingo IB was to learn and how quickly we were up and running. Plus, IBARMS no longer has to pay a transaction fee with every sale. Joingo IB has been an affordable and perfect solution to all our registration needs." -- Lori Dowd, IBARMS
