

Joingo → & **Joingo** →_{IB} System requirements

Joingo and Joingo IB are both run on the Drupal 6 platform.

Hosting note

To install and run Drupal your web host must meet certain minimum requirements. Most web hosts meet these requirements.

Drupal / Joingo's minimum requirements

Disk space

20 Megabytes

Web server

Apache 1.3, Apache 2.x, or Microsoft IIS

Database server

MySQL 4.1 or higher, PostgreSQL 7.1

PHP

4.4.0 or higher (5.2 recommended)

Joingo →_{Lite} System requirements

Joingo Lite is an independent application and does not require the Drupal platform.

Joingo Lite's minimum requirements

Disk space

1 Megabyte

Web server

Apache 1.3, Apache 2.x, or Microsoft IIS

Database server

MySQL 4.1 or higher, PostgreSQL 7.1

PHP

5.0 or higher (5.2 recommended)
